

TUFF Pallet CA systems are a low cost alternative to CA rooms and perfect for solution for long term shipping.

Key Features

- Very modular. From 1 to 1000 pallets.
- Manual controls or fully automated
- Each pallet's atmosphere is individually controlled and can have unique setpoints
- Pallets are moveable yet gas tight

Benefits of a Tuff Pallet CA System:

- Reusable heavy duty plastic covers
- Custom designed bottom pan to fit any size pallet
- Fittins are a quick connect style to allow ease of pallet relocation without compromising atmosphere
- Capable of controlling O₂ and interfacing with a nitrogen generator
- Designed to easily interface with any Windows PC
- Color operator interface
- Internet accessible with the ability to remotely monitor, change set points, and troubleshoot
- History logging of CO₂ and O₂ levels, run time, alarms, and capacity ratio
- Custom controls can be customer specified and interfaced to any existing equipment
- UL approved electrical panel
- Fast delivery
- Unbeatable quality yet competitively priced
- 24-hour technical phone, on site, and internet support
- Designed and built in the USA

Quick Connect/
Disconnect Fittings
